On the trip I enjoyed when we passed the Roman equipment. When we passed the metal rings it felt so very heavy I still couldn't hold it with both hands! I also liked the fighting part because we got to use the shields, the wooden swords and the teachers threw bullets at us. My partner was Ayaan and we were fighting each other. I also enjoyed when Hashim put the armour. He put a tunic, the armour, a helmet, a shield and a sword. The last thing I liked was when we were marching.

I loved the lunt gort because we had a steel sword and shield and that was our girls time sitting with a sword and shield. My governess bit was holding the roman stuff it was so cool. It was like we were ^{rel} ⁱⁿ the roman times. It was scary in the toilet because there were lots of spider and I mean a lot. I even almost got loked in.

Sword fighting

Written by: Ayaan

I loved the part when Hashim was dressing up in Roman clothes and when we were doing sword fighting because it was challenging when I was eating I was so happy because I had fun all that walking and talking and singing. When we were walking around me and my friends were playing Roman board games and looking at other stuff. I had the best day ever!
